Re: United States Patent for *CDMA Terminal for Providing Roaming Service to GSM Service Subscriber in CDMA Service Area*
Application No. 10/089010; Filed January 31, 2002
Patent No. 7,043,238; Issued May 9, 2006
Our File 038779/245435

Sir:

It is respectfully requested that a Certificate of Correction be issued for the above-identified patent, in accordance with 37 C.F.R. §1.322. This request is made in order to correct the mistakes incurred through the fault of the United States Patent and Trademark Office ("USPTO").

The enclosed Certificate of Correction is to list the Korean document that served as priority for the Korean PCT application. Since US Application No. 10/089,010 was filed as a National Phase Entry of the Korean PCT, the Korean priority document should show on the face of the patent. The document was listed on the Filing Receipt of the application. One of the advantages of filing a National Phase Entry of a PCT application instead of a US continuation is the fact that the priority document is made of record during the active phase of the PCT, which is made available to the elected offices.

The mistakes appearing in the patent are set forth on the Certificate of Correction enclosed herewith, with an additional copy thereof and a postal card being enclosed in accordance with the present USPTO practice.

Respectfully submitted,

Chad L. Thorson
Registration No. 55,675
